RE: Emil Mihai LIXANDRU

To Whom It May Concern:

Dear Madam, Sir

I'm a French – Romanian citizen, settled down in France for more than 10 years. I've obtained my PhD degree in Engineering Sciences at Ecole Centrale Paris and I'm working as product manager at WINOA, worldwide leader in the field of steel abrasives.

I'm very pleased and honored to state that Emil Mihai LIXANDRU is an old and in the same time one of my best friends, during the entire middle school we've been school desk colleagues.

It's well known that the basis of our personality are forged during childhood / teenage period and in my opinion Emil successfully implemented in his life, the major defining features gathered during that period. First of all, I consider Emil as a very loyal friend, an incredible hard worker, a team player, an open – minded person, with real soft skills, which allows him to easily integrate and accommodate new social and professional environments.

My statements are strengthened by his outstanding career path developed in the last past years in UK as lawyer and prosecutor and I'm sure that the whole of the elements composing and defining Emil's remarkable personality are very valuable for his future professional and personal projects.

Please feel free to contact me if you need any further relevant information.

Yours truly,

Claudiu IONESCU, PhD
